Program (vers. Sep. 2, 2014) – ændringer kan forekomme

Fredag den 12. september

12:00 – 13:00

Frokost

13:00 – 15:00

Robert Burkard and Claus Elberling, 60 min

Robert Burkard, PhD, CCC-A, is a Professor and Chair, Department of Rehabilitation Science, University at Buffalo. Dr. Burkard served as chair of American National Standards Institute (ANSI) S3 Bioacoustics, which is responsible for U.S. audiometric standards development. He is currently the chair of the working group that is responsible for developing an ANSI auditory evoked potential standard. He has also served as the Editor for the American Journal of Audiology.

“The characteristics and calibration of brief stimuli for ABR and ASSR testing”

Presentation will be in English

Anders T. Christensen, 45 min

Ålborg Universitet

"Cochlear generator sites of low-frequency DPOAEs with special focus on revised measuring methods"

Presentation will be in Danish or English

Fotografering v. DTASfotograf, Birger Christensen

15:00 – 16:15

Kaffepause / Udstilling / Posters

16:15 – 18:00

Jens Hjortkjær, 30 min

CAHR, Danish Technical University

“Afkodning af auditive opmærksomhedsprocesser via funktionel magnetisk resonans”

Presentation will be in Danish

	<p><u>Robert Burkard</u>, 60 min "An idiosyncratic clinical/scientific gap analysis of the field of Audiology" Presentation will be in English</p>
18:00 – 18:30	Generalforsamling
19:00 – ?	Middag efterfulgt af hyggeligt samvær
Lørdag den 13. september	
8:00 – 9:30	Morgenmad
9:30 – 12:00	<p><u>Chris Vigandt Jørgensen</u>, 30 min DELTA, Test & Consultancy "Teleslyngen i Danmark - status og fremtid" Presentation will be in Danish</p> <p><u>Jens Bo Nielsen</u>, 30 min CAHR, Danish Technical University "DAT-materialet – et redskab til talemaskerings-eksperimenter" Presentation will be in Danish</p> <p><u>Susanne Steen Nemholt</u>, 30 min Oto-rhino-laryngology, University of Southern Denmark "Tinnitus og hyperacusis hos børn og unge" Presentation will be in Danish</p> <p><u>Robert Burkard</u>, 45 min "Masking, adaptation and auditory evoked potentials" Presentation will be in English</p>
12:00	Frokost - hjemrejse

Posters

- **Pernille Holtegaard:** Primary Neural Degeneration From Noise Exposure
- **Mouhamad El-Haj-Ali:** Dead Regions i Cochlea
- **Jon Øygarden:** Binaural advantage and spatial release from masking with different masking noise
- **François Guérit:** Interaural Place-Mismatch Estimation with Two-Formant Vowels in Unilateral Cochlear-Implant Users
- **Bastian Epp (/Gerard Encina Llamas):** Estimates of peripheral compression using multi-frequency ASSR
