**Program (vers. 13. august) – ændringer kan forekomme.**

**Fredag den 11. september**

12.00 – 13.00

Frokost

13.00 – 15.00

Claus Nielsen 45 min

Oticon - Eriksholm

**"Høreapparatets Historie".**

Claus har jo for nylig færdiggjort bogen om Høreapparatets Historie, så her har vi god mulighed for et godt overblik.

Einar Laukli 30 min

Tromsø

**"Hearing Aid Technologies – what has been achieved and what was only marketing hype".**

Presentation will be in English.

Christopher Halpin 45 min

Harvard Medical School, Boston

**"Seeing the patient's cochlea in your clinical results"**

As Chris likes to get some discussion going during his presentations, we are surely in for a good treat.

Presentation will be in English.

15.00 – 16.00

Kaffepause / Udstilling

16.00-18.00

Christopher Halpin 45 min

Harvard Medical School, Boston

**"Predicting successful fittings - has new technologies made us forget some important basics?".**

Presentation will be in English.

Einar Laukli 45 min

Tromsø

**"Frequency Specificity versus Threshold Accuracy of ABR/ASSR in Relation to the Fitting of Hearing Aids in Children".**

Presentation will be in English.

Christopher Halpin 30 min

Harvard Medical School, Boston

**"What's exciting about air, bone and speech? 1. Behavior of the variables "**

The classic audiometric test battery provides important information far beyond what typical clinical use may suggest.

Presentation will be in English.

18.00 – 18.30

**Generalforsamling**

19.00 - ?

Middag efterfulgt af hyggeligt samvær

**Lørdag den 12 september**

8.00 – 9.30

Morgenmad

Einar Laukli 30 min

Tromsø

**"Standardisering. Status over nuværende indsatsområder og evt. fremtidige behov".**

9.30 – 12.00

Christopher Halpin 30 min

Harvard Medical School, Boston

**"What's exciting about air, bone and speech? 2. Study results"**

Presentation will be in English.

5 min. Pause

Carsten Daugaard 30 min

DELTA

**"Evaluating sound quality in hearing aids with reference test audiograms"**

Carsten will present a study where normal hearing listeners subjectively evaluated sound quality of different hearing aids and fitting strategies in a controlled test setup including the use of the new standardized audiograms from the new IEC 60118-15 draft.

Ture D. Andersen 45 min

OUH / SDU

**"Udfordringen for fremtidens Høreapparat. "**

Tures mangeårige erfaring som både ingeniør og mediciner har både en teknisk og praktisk erfaring med området. Det bliver spændende at høre hans vinkel på dette vigtige emne.

12.00

Frokost - hjemrejse
